

## PETERSON SULLIVAN LLP

CERTIFIED PUBLIC ACCOUNTANTS

601 UNION STREET, SUITE 2300

SEATTLE, WASHINGTON 98101

### Job Title:

### Entry Level Associate Accountant – Audit/Tax

#### Description:

At Peterson Sullivan, we enjoy our work. We're a growing, mid-sized CPA firm with beautiful offices in the heart of downtown Seattle. We have a broad, technically interesting practice and a dedicated, friendly work atmosphere.

We're looking for enthusiastic, outstanding individuals to join our Firm as entry level Accounting staff during late summer/early Fall 2011. Prior to that time, these individuals must have received a university degree with emphasis in Accounting and be a CPA candidate. Applicants should have a 3.0 or higher GPA in Accounting coursework.

Peterson Sullivan is a great environment for professional development. Working directly with high level business owners is the norm rather than the exception. We have sophisticated technical resources in all subjects; tax, audit and everything in-between. Professional growth is actively encouraged, and the Firm's size, culture and client list are ideal for the individual who thrives on new responsibilities and a variety of work.

We are seeking individuals in both our Audit and Tax departments. Our Staff Accountants learn multiple accounting skills and work with a variety of clients and industries to build a solid foundation of expertise before identifying their long term career path and area of specialty.

Audit Staff will apply accounting principles and auditing procedures to client engagements, prepare work papers and make recommendations for those engagements, and demonstrate the ability to work independently as well as in a team-oriented environment.

Tax Staff will primarily prepare tax returns, including individuals, corporations, and partnerships. Tax Staff also research and consult on various tax projects and research tax matters.

We provide full benefits for our staff, including 100% employer-paid medical/dental/vision insurance, life insurance, short/long-term disability insurance; generous vacation and sick leave and a unique compensatory time program; 401(k)/retirement plan; transportation/parking allowance; and many other benefits and opportunities for training and professional development. We also pay for 100% of Becker CPA review course fees, and the CPA Exam fees.
